C. M. Kilian Orchid Conservatory

210 YORKSHIRE DRIVE • BIRMINGHAM 9, ALABAMA

LIST OF ORCHID PLANTS FOR SALE

HOW SHIPMENT IS MADE: In pots, via Railway Express, charges collect, unless you specify otherwise. If you specify shipment via ordinary Parcel Post, add 10% to the amount of your order for postage for shipments in the United States. If you specify Air Mail shipment, add about 1/3 for postage. Any overpayment will be refunded. It is recommended that Air Mail shipments be specified out of pots, to lessen weight. Air freight is recommended for shipments to Hawaii, Porto Rico, Cuba and other distant points where shipment weighs 15 lbs. or more and where there is a scheduled airport at destination.

WHEN SHIPMENT IS MADE: Usually within 3 days after receipt of your order; frequently the same day.

SUBSTITUTIONS: I do not substitute without permission. To save time and correspondence, it is suggested that you indicate 2nd and 3rd preference, in the event the variety you order has been sold.

DISCOUNT: 5% discount for 6 or more plants ordered at one time.

TERMS: Cash with order. If I can't supply what you order, your money is refunded promptly. Minimum order \$5.00, please.

ABBREVIATIONS AND DEFINITIONS: C. means Cattleya; Lc. means Laeliocattleya; Bc. means Brassocattleya; Blc. means Brassolaeliocattleya. The word "alba" means white with colored lip. In the case of some albas, the flowers will occasionally be very slightly tinted.

Blooming Size Hybrid Orchid Plants — Cattleya and Allied Genera

Unless otherwise indicated, the plants in this group are in 5-inch pots or larger. Blooming seasons are *approximate*; the blooming seasons of hybrids may vary some from year to year.

Strays

In handling a volume of plants, some name tags get lost during re-potting, shifting location, etc. No plant in my greenhouse has a name tag placed on "by guess." Plants from which tags become lost are labeled "Stray" and sold as such. I have a few from time to time. All are hybrids—most are in 5-inch or larger pots. *As available, they're priced at \$7.50.* They're good plants for cut flowers but, because the parentage can't be traced, are not suitable for hybridizing.

Species

For those who prefer the lower priced species, I have limited quantities of the following: (*Minimum order \$5, please*).

Cattleya Trianae—\$3 to \$5 each, depending on size of plant (Winter)

Cattleya Mossiae—\$5 each to \$7.50 each, depending on size of plant. (Spring)

Cattleya Skinneri—\$2 each. (Spring)

Laelia Anceps—\$3 to \$5 each, depending on size of plant. (January)

Near Blooming Size Hybrid Orchid Plants — Cattleya and Allied Genera

The plants on the following list followed by a number are seedlings which *should* bloom on next growth, although this cannot be predicted with certainty. Unless indicated otherwise they are in 4-inch pots, many of which are ready for 5-inch pots. Other plants in this group are divisions in their second year of growth and *should* bloom on next growth.

Orchid Seed From time to time I have pods ripening of desirable crosses. If interested in being advised as these pods ripen, please write.

WHAT SOME WHO HAVE BOUGHT FROM ME SAY

I am not a "big operator". The mature hybrid plants I offer and many of the seedlings originated in the greenhouses of some of the best known English, Continental and American hybridists. From time to time I acquire collections which I have been asked to sell for the owners—these are the plants I offer for sale as well as, in the case of a number of seedlings, plants which have been grown on from infancy in my greenhouse. Every order receives my personal attention, and orders are shipped promptly—(except during winter when shipments are made as weather in your section permits). If I can't supply what you want, and you do not indicate a 2nd or 3rd preference, I don't hold your money and try to persuade you to buy something else—it's returned to you promptly. I don't offer "bargains"; I do try to give you your money's worth. Many persons have been pleased with their dealing with me—the comments of a few of them follow:

"I am proud of the plants and do not hesitate telling people where they come from and advocate a firm that gives such quick service."—FLORIDA. "The plants I received from you are doing fine."—OHIO. "You have been recommended to me by several of your customers."—WASHINGTON. "I am more than pleased with the plants and never expected to receive such prompt service."—CALIFORNIA. "I have received your seedlings and they are very satisfactory. Please send me another similar group."—MICHIGAN. "We are very pleased with the plants you sent."—ILLINOIS. "The seed I bought from you has done just wonderful."—ONTARIO. "Your plants are excellent and your service superb."—ALABAMA. "I have just seen the plants you sent a friend of mine. They are so nice that I borrowed your list from her and am ordering from it."—MINNESOTA. "About the fastest service I have received from any grower."—HAWAII. "The plants came through in fine shape; I'm pleased with them."—DOMINICAN REPUBLIC. "Many of the seedlings I bought from you are showing flower sheaths."—WISCONSIN. "I'm pleased with the plants I ordered from you."—BRITISH COLUMBIA. "After visiting quite a few greenhouses through the South and East, I wish to tell you that you have some very nice plants and prices; especially in your seedlings."—TEXAS.
